Fusion 360

Hassle-Free DSCSA Compliance

Focus on your practice, not on Inspections & Audits

Automating DSCSA Compliance for Dispensers

Complete DSCSA Compliance

- End-to-end solution covering ASN delivery, storage, & data validation
- Automated validation for both EDI856 & EPCIS transmissions

User-Friendly & Efficient

- An easy-to-use interface with little or no scanning required
- Supplier onboarding and support provided

Comprehensive Data Management

- Robust repository of supplier licenses & SOP templates
- Real-time alerts for suspect data, recall matches, & expiring credentials

Improved Workflow & ROI

- Enhanced lot-level tracking, aggregation support, & quarantine audit support
- Enables dispensers to focus on patients rather than administrative burdens

Why Choose Fusion?

- **Turnkey Solution.** Simplifies compliance and reduces risk with an all-in-one service suite designed to integrate seamlessly into your existing operations.

- **Dedicated Support.** Enjoy personalized onboarding and ongoing telephone support, ensuring you're covered during audits and inspections.

- **Scalable & Reliable.** Capable of processing millions of transactions with full automation, giving you peace of mind that you're always compliant.
