Correctional Pharmacy Rebate Management

Unlock Maximum Savings with Fusion's Rebate Solutions

Correctional pharmacy rebates present unique challenges distinct from commercial payer programs. Limited manufacturer participation, unmanaged formularies, and specialized purchasing discounts call for a more tailored approach to avoid inaccurate claims, costly clawbacks, and missed savings.

Fusion Pharmacy Cost Management Services ensures accurate claim submissions, maximizes savings through optimized rebate and discount utilization, and delivers program stability, allowing correctional facilities to focus on patient care while safeguarding their financial resources.

Why Choose Fusion?

- ✓ **Expertise and experience.** Fusion has supported correctional pharmacies for more than 30 years with technology and programs to lower costs and improve operational efficiency.
- ✓ **Simplified service.** You won't need to provide data extracts or IT requirements: Fusion handles it all. We identify, review, and submit qualified claims for manufacturer rebate payment.
- ✓ **Program stability.** Submitting incorrect or ineligible claims for manufacturer rebates, especially under Commercial Payer programs, can lead to costly and disruptive clawbacks. Fusion's expertise ensures accurate submissions, minimizing this risk and protecting your pharmacy's finances and operations.
